

## **ATDML October Virtual Crop Class**

**By Karen Moss**

Papers "Homespun" by  
Simple Stories

**Layout – With You I Am Home**

### **Photo Requirement**

Three photographs 3 ¾ tall and 2 ¾ wide.

- Cut ¼ inch from bottom and one side of the Grey Woodgrain paper. Adhere this to the centre of your white cardstock.
- Cut apart your Journaling Card Element sheet and cut the 'labels' from the centre of the newsprint one, I left the edge intact so it could be used as a photo mount. Also cut 'With You I Am Home' from the journaling card elements and mount onto the large fancy shaped die cut. This is then adhered to the centre of your page at the top.
- Choose six of your journaling cards and arrange as in the photo below.
- Adhere your photos to three of the journaling cards and use the bling arrows to point at the photos. I cut a section from the middle of one of the arrows so that it didn't extend too much on my centre top photo. The section I removed I used at the bottom of my journaling block. Cut out the labels and put one at the bottom of each photo. I also cut some bits from the remaining journaling cards to embellish the top right card.

- **Midi Album**

**Photo requirement**

Photos added later once album has been made.

- Cut the 6 x 12 Elements paper in half vertically. Also cut the 4 x 4 elements from the 4 x 4 & 6 x 8 elements sheet. Cut the 6 x 8 elements into two into two pieces. From the spotty papers cut three 6 x 6 squares. You should now have two pieces 12 x 6, two pieces 6 x 8 and three pieces 6 x 6.
- Along one long edge of each of your pieces score and fold 1 cm. NOTE I decided to fold my 6 x 12 piece with FAMILY at the bottom along the left side not along the right as shown in this photo. See photos at end of instructions for how I layered up my pages.

- The book pages are layered up with the 1 cm folded piece on the right.
- I stacked my pages :- 12 x 6, 6 x 6, 8 x 6, 6 x 6, 8 x 6, 6 x 6 and finally 12 x 6.
- Take one of the 12 x 6 pieces and one of the 6 x 6 pieces, glue or red tape along the outside of the 1 cm fold of the 6 x 6 and lay on top of the 1cm fold of the 12 x 6. Do the same all of your pages.
- You should end up with a stack that looks like this. You may need to slightly trim your pages to neaten the stack.

- From your remaining whole sheets of spotty paper cut one piece 12in x 6 ½ inches, one piece 12ins x 6ins and two pieces 12ins x 5 ½ ins.
- Score and fold ½ inch along the long edge of the 12 x 6 ½ piece of paper.
- Turn your stack of pages over so that the last page is on the top and the fold is on the right and glue along the 1 cm fold. This is then adhered to the piece of 12 x 6 spotty paper (mine is yellow).
- Turn the stack so that the first page is now on top and take the piece of 12 x 6 ½ spotty paper (mine is green) with the plain side showing and fold on the left and folded under. Place this on top of your stack and glue the ½ in flap to the back of your stack (please excuse the state of my yellow paper – due to experimenting with how to construct the album).

- Cut two pieces from your pizza box measuring 13ins x 6 ½ ins – these will form the cover of your album. Ink around the edges of these. Use red tape to adhere one to each of the spotty papers at the front and back of your album. **\*\*\*TOP TIP\*\*\*** Put a thin layer of glue stick on your tape, once you have removed the red coating, as this will give you a little 'wiggle time' to line up your pages and cover before the red tape sticks.
- Cut a piece of spotty paper 12ins x 2 ½ inches and score and fold at 1 inch and 1 ½ inches to form the spine of your album. Just use red tape on the two 1 inch sections and **NOT** on the centre ½ inch section to attach this to the covers of your album.
- Finally add photographs and journaling and use your remaining papers to embellish your pages.
