

Pop up box card – Make and Take for ATDML Spring 2014 retreat

Take a piece of A4 Card. Cut to 19cm wide and keep the length of 29.5cm. Retain the offcut strip for later and making your zigzag inserts.

Score the card along the longest length at 7cm, 14cm, 21cm and 28cm.

Score the card along the shortest length at 9cm.

Cut down the 4 shorter lengths to the scoreline removing the shortest 9cm x 1.5cm strip from the end.

Fold along the centre scoreline the 1st, 2nd and 4th pieces leaving the 3rd one tall.

Add adhesive to the smallest strip at the end and affix to make your box shape.

For the zigzag inserts cut two pieces measuring 9cm x ½cm and score at 1cm and 8cm. Affix these inside your box equally spaced apart to hold your pop up elements.

Decorating the outer flaps you will need three pieces measuring 6 ½ cm x 8 ½cm and for the taller front and back covers two pieces measuring 6 ½cm x 18 ½cm.

The covers for the three sides under the flaps measure 6 ½ cm x 9 ½cm and you need three of these.
